Xila

# A shared language for Xila.

Presentation template and authoring guide

Xila project · 9 November 2026

# One idea per slide.

Lead with the point. Give the audience a clear reason to care before adding the implementation details.

- Use short, concrete headings.
- Keep the supporting material easy to scan.
- Let diagrams and examples do useful work.

# Built from the same identity.

## Typography

Montserrat Regular 400 for body text. SemiBold 600 for headings. Bold 700 for emphasis.

## Artwork

Use the supplied Monogram lockup. Preserve its geometry, proportions and clear space.

# Make room for the content.

A quiet frame for a clear explanation.

# Explain the flow.

**Context**
What the reader needs to know.

→ **Decision**
What you propose and why.

→ **Evidence**
What you checked and learned.

> **Keep the claim precise**
>
> Use actual results for product claims. This diagram describes a presentation structure.

# Ready to adapt.

- Replace the specimen with your own content.
- Keep each slide inside its fixed 16:9 frame.
- Check contrast, line breaks and attribution.
- Export a PDF and review it at presentation size.

# Your next idea starts here.
